

Alexandras older brother died the night he graduated. That day changed everything for her. No longer was she the party girl. No longer did she care about being popular and no longer was her family the happy unit she always thought existed. The only person who could help her heal is the same person who loved her brother as much as she did, his best friend. She only hopes to keep her entire heart from breaking when Jesse will move on, and she knows he will. After Ethan died, Jesse excelled at basketball, partying, and girls. He used it all to turn his emotions off, but the irony was that Alex was the only person who could do that for him. She helped him forget, but she was the one person he shouldn't be with because the secrets he knows could shatter everything. They could shatter her. This is part one, so expect a cliffhanger for an ending.
