Heidi Jones is a graduate student studying the only known Viking settlement in North America. She's never been too interested in men as they don't match her fantasies of Viking warriors. She's sent a thousand years into the past when the settlement was active and into the arms of a real Viking warrior. Asmund is the son of a war chief who has led his people to the new world. He's stunned to find himself meeting a tall blond goddess. He needs to help the settlement thrive if his people are to have a future, but he can't get the gorgeous woman out of his mind. Heidi can speak the language of the men who have found her. She is adopted into the Viking settlement and discovers an enchantment for Asmund, seeking any opportunity to be with him. But trouble is brewing. The original inhabitants of the new world are close by and don't take kindly to someone else moving into their territory without permission. Soon a bad mistake will provoke bloodshed and shatter the fragile truce between the two groups. Will the burden of the future destroy the happiness of the past? Will Heidi and Asmund find love with each other or will their desires be thwarted by the traditions of the elders? Warning! This ebook contains explicit scenes of passion and desire.
