

Creating Literacy Instruction for All Children in Grades Pre-K to 4

In response to today's needs to tailor instruction for the lower grades (pre-K-4), this new text features sample lessons for virtually every major literacy skill/strategy and offers numerous reinforcement suggestions and generous listings of materials appropriate for the lower grades. The methods emphasized are those that have been validated by research and/or practice. Extensive coverage is provided for areas of instruction mandated by federal programs such as Reading First: phonological awareness, phonics, fluency, vocabulary, and comprehension. However, the text also presents the theories behind the methods, so readers will be free to choose, adapt, and/or construct their own approaches as they create a balanced program of literacy instruction.
