

# Discoveries (Multiage Differentiated Curriculum for Grades 1-3) (Multiage Curriculum - Primary)

From the Gold Rush in California, to the many uses of crayons, students will explore the diversity and complexity of the concept of discoveries in Discoveries, a book in the Multiage Differentiated Curriculum Kit for Grades 13. The books in Prufrocks new Differentiated Curriculum Kits employ a differentiated, integrated curriculum based on broad themes. This all-in-one curriculum helps teachers save planning time, ensure compliance with national standards, and most importantly, pique their students natural excitement and interest in discovery. By participating in the wide variety of activities in the Multiage Differentiated Curriculum Kit for Grades 13, students will appreciate the discoveries around them and gain a lifelong desire to learn. Through the eyes of a tiny mouse, students are led to evaluate and discover what they are truly made of. Students investigate why discoveries from the past are important to the present and the future. Students also will examine how discoveries are made by studying those made by historically significant explorers and researchers. Discoveries, along with the other books in the Multiage Differentiated Curriculum Kit for Grades 13 (Cycles, Faces, Gifts, and Symbols), makes teaching advanced learners easier! This curriculum unit makes use of the following great childrens literature books: Abels Island by William Steig; Gold Fever! by Rosalyn Schanzer; Rare Treasure by Don Brown; Pompeii...Buried Alive! by Edith Kunhardt; Crayons from Start to Finish by Samuel G. Woods (optional); and The Search for Lost Cities by Nicola Barber (optional).
