Through thought-provoking questions, the book gives extensive advice on how to use the discussion guide, how to inform decisions related to the topics at hand, and how to best read it alone, in reading groups, with your partner, or as part of learning activities, among others. >>> After reading this book, you will know how to: Use a mindful approach to succeed in life; Deploy a perceptive ability to reach personal aspirations ranging from employment and inner peace to marriage and spiritual comfort; Maintain levelheaded expectations under all circumstances; Blend inner voice and open-mindedness to become a better, more mindful person; and Follow a paradigm of lifelong learning to gain experience and improve your life. >>> Who will benefit from this book?
