

## Unlikely Partners

The best manuscript I have seen in ages....wonderfully written. Christine Tangvald, best selling author of *Someone I Love Died* and over 80 other books. Texas 1880: When Texas Ranger Colt McCutcheon picks up his final assignment it comes with a major complication. His job is to infiltrate and capture the deadly Palmer gang while baby-sitting a would-be gunslinger. Suddenly hes forced to ride on the wrong side of the law with Dru Ramsey, a beautiful, gun-toting female bent on revenge. His unwanted partner soon proves the pearl handled revolvers strapped on her hips arent decorations -- a renegade lawman and a fast gun. When the dust settles will Colts faith have stood the test? Will Dru trade in her guns? Is there a future for this unlikely pair? What Readers Are Saying: I fell in love with this book. After reading her first book, *Angels in Cowboy Boots*, I wanted to read more. She is so gifted in story telling and keeps you wanting more...and each story gives you a sense of goodness, but not the sappy kind that makes you think that we live in a sugar sweet world.....she is factual for a fiction writer. There is always a lesson, a real life lesson, to be learned in her stories...She can make you hurt from laughing and go thru a box of kleenex from the heartache and dispair...But throughout all of this, you learn and feel the hope and peace that God brings into these characters lives, just like in our non-fiction world... If I could give this one 6 stars I would! This is the best novel from SQ so far. There are so many surprises in this book that keep you turning the pages. You think you have it figured out and then another twist keeps you in suspense. I dont want to say too much and spoil your fun. Dont miss this one--Im giving it to all my friends.
